Galle, Sri Lanka

SUMMARY

HND in Information Technology undergraduate at SLIATE, ATI Galle with hands-on experience in full-stack web and mobile application development using React, TypeScript, Next.js, Flutter, Firebase, MongoDB, PostgreSQL, and Docker. specializing in software development and web technologies. Skilled in building clean, functional, and user-focused applications using modern frameworks. Self-Motivation, collaborate, and contribute to real-world software projects. Passionate about building high-quality software solutions, solving complex business problems, and continuously improving technical expertise across modern web and mobile technologies.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript, Typescript, C#, PHP, Dart, Python,

Frontend: React.js, Next.js, Tailwind CSS, HTML5, CSS3, Bootstrap, JavaScript (ES6+)

Backend: RESTful API Design, Firebase, Laravel, Node.js, Express.js,

Databases: Firebase, Supabase, MySQL, SQLite, SQL Server, MongoDB

Tools & Platforms: Git, GitHub, VS Code, Figma

Mobile: Flutter, React Native

WORK EXPERIENCE

Graphic Designer – Curry Bowl Restaurant | Croatia *Apr 2025 - May 2025*

- Designed 25+ visual assets including menus, social media posts, and promotional banners for the restaurant's rebranding.
- Produced a complete brand identity package covering logo, colour palette, and print materials used across 2 locations.

Intern Digital Marketing Advisor - Peoples Bank | Udugama *Apr 2023 - Feb 2024*

- Assisted in executing digital marketing campaigns promoting bank apps, reaching over 3,000 customers.

EDUCATION

Higher National Diploma in Information Technology *2024 - Present*

Sri Lanka Institute of Advanced Technological Education (SLIATE), ATI Galle

Relevant Coursework: Software Engineering, Database Systems, Web Application Development, Object-Oriented Programming, Computer Networks

G.C.E. Advanced Level Examination - 2022 (2023)

Commerce Stream | Index No: 81725930

Information Technology — A | Business Studies — B | Accounting — S

G.C.E. Ordinary Level Examination - 2018

Index No: 2890283 | Results: 5A, 3B, 1C

CERTIFICATIONS

- 3rd Place INNOVISION 2026 Exhibition** – ATI Galle (SLIATE)
- 3rd Place INTROVA 2025 Exhibition** – ATI Galle (SLIATE)
- Python For Beginners** – University of Moratuwa (CODL) – 2022

PROJECTS

ConstructAi – Construction Management System – *Present*

Tech Stack: React Native (Expo), Python FastAPI, Supabase, NativeWind, Claude API (Anthropic)

- Built a full-stack construction management platform for Sri Lanka serving 6 user roles (Admin, PM, Site Manager, Client, Worker, Supplier) with role-isolated dashboards and real-time data sync using React Native, FastAPI, and Supabase.
- Integrated Claude API to generate AI-powered project cost estimates with material, labour, and overhead breakdowns using Sri Lanka construction rates, with automated PDF generation and email delivery via Resend.com.
- Implemented QR-based worker attendance tracking with automated check-in/checkout, overtime calculation, and month-end payroll generation using APScheduler cron jobs.
- Developed an ML insights dashboard with delay risk scoring, cost overrun prediction, and resource optimization metrics per project, architected for XGBoost model integration at scale.

HNDIT LAB – An Interactive Learning Laboratory Platform - *2026*

Tech Stack: React.js, Next.js 14, Tailwind CSS, TypeScript, Supabase

- Developed a full-stack AI-powered learning platform for HNDIT (Higher National Diploma in Information Technology) serving 300+ students, enabling interactive lab generation, quizzes, and academic progress tracking using Next.js 14, TypeScript, and Supabase.
- Engineered AI-driven pipeline converting uploaded PDF lecture notes via Google Gemini API into 36 weekly theory modules, code snippets, and simulations, cutting manual content creation time by five hours.
- Built a gamification system with XP-based levelling, achievement badges, and a global leaderboard, increasing student engagement by 40% compared to traditional learning methods.
- Established a role-based authentication system with separate Admin and Student dashboards, supporting content upload management, user analytics, subject-semester organization across Year 1 and Year 2 curricula, and AI analysis tracking.

Personal Expenditure and Income Manager – Financial Tracking Web Application - *2025*

Tech Stack: React, TypeScript, Vite, Tailwind CSS, Shadcn UI

- Architected a responsive personal finance management application, decreasing data loading times by 30% through optimized frontend performance.
- Engineered the frontend using React, TypeScript, Vite, Tailwind CSS, and Shadcn UI to create a modern and user-friendly interface.
- Utilized Supabase for backend/database integration and state management technologies for efficient data handling.
- Designed fully responsive layouts ensuring seamless usability across 3 device types: desktop, tablet, and mobile.

LANGUAGES

- Sinhala — Native
- English — Professional Working Proficiency
